Roll Bar Padding

**SFI 45.1 Rated Roll Bar Padding** This super-rigid padding is strongly recommended by the SCCA. It is designed for use wherever your helmet can contact the roll bar, so the C-shape profile covers just one side of the bar (order 2 pieces if you want full coverage around the bar). A self-adhesive lining makes installation easy. Two sizes are available to fit bars from 1.12" to 1.5", and from 1.625" to 2" OD. Available in Black, Blue, Red, or Yellow. Sold in 3 foot lengths.

**SFI 45.1 Dual-Density Padding** Get the best of both types of roll bar padding! A base layer of SFI 45.1 roll bar padding is covered by a removable layer of high-density comfort padding to absorb minor impacts. Use just the base layer around your helmet, and both layers where your arms are more likely to hit the bar. As with the SFI 45.1 padding at left, the C-shape profile covers just one side of the bar (order 2 pieces if you want full coverage around the bar). Fits 1.5" to 2" diameter bars. Black only. Sold in 3 foot lengths.

**Open-End Roll Bar Mounts**

*Open-End Roll Bar Mount, 1.5" Bar*  
Part No. 2035-320-1.5 . . . . . . . . . . . . . . . . . . . . . . . $24.99

  Part No. 22759 . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . $17.99

**Clamp-On Reducers**

**Clamp-On Bracket Reducers** How do you mount a clamp-on accessory to your roll cage if your tubing isn’t 1 1/4" OD? Use these clever aluminum adapter sleeves! Three sizes are available to reduce 1 1/4" ID clamp-on brackets to fit 1 1/2", 1 5/8", or 1 3/4" OD tubing. Just install your clamp-on accessory right over the reducer. The 1 3/4" wide U-channel groove in the reducer prevents the bracket from slipping off. Sold in pairs; one pair fits one clamp-on bracket.

- **Clamp-On Reducers, pair (for one bracket)  
  - 1 1/4" Tubing**  
    Part No. 1318-025-1-250 . . . . $9.99
  - 1 1/2" Tubing**  
    Part No. 1318-025-1-500 . . . . $9.99
  - 1 5/8" Tubing**  
    Part No. 1318-025-1-625 . . . . $9.99
