with Built-In Sports Bra
Part No. 2152-004-Size

Pro-Tek CarbonX Sports Bra
Part No. 2152-003-Size

Lady Eagle Safetywear is designed specifically for a woman's figure. No more settling for men's underwear that doesn't fit properly or unsafe non-flame retardant undergarments. All Lady Eagle products are constructed of soft knit CarbonX with minimal seams, no fly, and no underwires or hooks that compromise comfort and safety. The **Underwear Top** features long sleeves and a turtleneck with the Lady Eagle logo. The **Underwear Bottoms** feature full-length legs, an elastic waist, and no fly! The **Pro-Tek Sports Bra** has a racer back design, while the **Pro-Tek Tank** features a built-in Sports Bra with the added coverage of a tank top. Both feature wide, comfortable straps and no uncomfortable hardware. All items available in sizes X-Small through XX-Large.

Unlike many other fire-retardant fabrics on the market today, CarbonX won't char, shrink, or burn. When exposed to intense heat or flame, CarbonX fibers expand, dramatically reducing the oxygen content within the fabric. Its soft knit construction is very comfortable and efficient in wicking moisture away from your skin. The long sleeve top has a mock turtleneck. Tops and bottoms are available in sizes Small through XXL, and the socks are one size fits all. Available in black only.

TraqGear Fire-Retardant Undergarments, SFI Approved

TraqGear Undergarments are constructed of a revolutionary new flame-retardant material that provides SFI-approved fire protection, yet feels as light and breathable as workout clothes! The wicking fabric is so comfortable, you can wear TraqGear as a base layer without any conventional (non-FR) underwear to compromise safety. This also results in an even cooler, less bulky feel. The seams have been moved away from the shoulders and armpits to avoid the typical pressure points that occur while driving. **Podium** tops have a sporty 2-color style, with special breathable black inserts in the arms, shoulders, and torso sides. **Race Pro** tops and bottoms are a solid color with black flat-sewn seams. The bottoms even have a fire-resistant elastic waistband. All are made in the USA and carry SFI 3.3 approval.
