Intercomp Digital Memory Tire/Brake Pyrometer and Timer

This is the ultimate all-in-one pit lane tool! As a tire pyrometer, it displays 12 tire temperatures which you can measure in any sequence. As a brake pyrometer (requires the Brake Probe, sold separately) it displays 4 brake temperatures and calculates front and rear bias. The built-in 4-car timer means you won't be fumbling with two separate pieces of equipment in the pits. Stores 100 laps in memory for each car, plus tire or brake temperatures from 10 sessions. The backlit LCD can display temperatures in °F or °C. The rugged temperature probes have coiled cords to prevent tangling. Measures just 5" x 7" x 1.5" and includes a padded case and 9 volt battery.

<i>Intercomp Memory Tire/Brake Pyrometer and Timer</i>	Part No. 102034	\$429.00
<i>Intercomp Optional Brake Probe, 0 to 2000°F</i>	Part No. 3184-Brake	\$139.00
<i>Intercomp Replacement Tire Probe, 0 to 1500°F</i>	Part No. 3184-Tire	\$109.00

Longacre Digital Memory Tire Pyrometer and Stopwatch

Take tire temps in any order, store up to 10 complete sets of temperatures, and compute averages. Electronic anticipation circuit gives accurate, consistent readings more quickly. Built-in 4-car stopwatch function has a 75 lap memory for each car. Backlit LCD displays up to 300°F. Includes padded case and 9 volt battery.

<i>Longacre Memory Pyrometer and Stopwatch</i>	Part No. 3174/Watch	\$399.99
<i>Replacement Longacre Tire Probe</i>	Part No. 3187	\$68.99

Longacre Digital Memory Tire Pyrometer

Displays all 12 tire temperatures simultaneously and stores 10 complete sets of temperatures with easy one-button recall. Electronic anticipation circuit stabilizes readings quickly. Displays up to 300°F. Includes padded case and 9 volt battery.

<i>Longacre Memory Tire Pyrometer</i>	Part No. 3174	\$339.99
<i>Replacement Longacre Tire Probe</i>	Part No. 3187	\$68.99

Intercomp Digital Pyrometer

This rugged, compact pyrometer displays 0 to 1500°F or -18 to 815°C (2000°F/1093°C with optional brake probe) and has a temperature hold feature. Durable probe includes strong coiled cord. The display resolution can be set to 1° or 0.1°. Measures just 5 1/2" tall x 2 3/4" wide x 1 1/4" deep. Includes carrying case and 9 volt battery.

<i>Intercomp Digital Tire Pyrometer with case</i>	Part No. 3183	\$199.00
<i>Intercomp Replacement Tire Probe, 0 to 1500°F</i>	Part No. 3184-Tire	\$109.00
<i>Intercomp Brake Probe, 0 to 2000°F</i>	Part No. 3184-Brake	\$139.00
<i>Custom Tire Temperature Note Pad (65 pages)</i>	Part No. 3165	\$2.99

Longacre AccuTech Economy Digital Pyrometer

This rugged pyrometer has only the features you need. Reads to 500°F with Min, Max, and Hold functions. Will even calculate the difference between two temps. Probe has a no-hassle straight cord. Includes 9 volt battery.

<i>Longacre AccuTech Economy Digital Pyrometer</i>	Part No. LA50635	\$112.99
<i>Custom Tire Temperature Note Pad (65 pages)</i>	Part No. 3165	\$2.99

Longacre Combination Tire Pressure Gauge and Pyrometer

This combination digital gauge can display up to 12 temperatures or four tire pressures at once. Both of those features in a single gauge make it worth the price, but this gauge can also integrate the two functions to display **compensated** tire pressure. The gauge uses the tire temperature data to calculate the corresponding tire pressure at a standard temperature (80°F). This allows you to set the proper tire pressure in the pits without guesswork, even if the tires have been sitting in the sun all day. Pressure is accurate to 0.1 psi. Temperatures are displayed in 1 degree increments. Includes padded case.

<i>Combination Tire Pressure Gauge and Pyrometer, with case</i>	Part No. LA53050	\$399.99
<i>Custom Tire Temperature Note Pad (65 pages)</i>	Part No. 3165	\$2.99

MiniTemp Laser Sight Infrared Gun

This laser-sighted infrared pyrometer is simple and easy to use. Read tire, radiator and oil cooler temperatures – even find a bad trailer wheel bearing before it fails! Features a fast half-second response time. Backlit LCD displays from 0° to 750°F (-18° to 400°C) with a resolution of 0.5°F (0.2°C). Also has a low battery indicator and 7 second display hold. Accurate to ±2%. Includes 9 volt battery.

<i>MiniTemp Laser Sight Infrared Gun, 0 - 750°F</i>	Part No. 50627	\$62.99
<i>Holster Style Carrying Case for Mini Temp Gun</i>	Part No. 50622	\$15.99
<i>Custom Tire Temperature Note Pad (65 pages)</i>	Part No. 3165	\$2.99

Portable Air Tank

This 5-gallon portable air tank is constructed of strong, lightweight stainless steel. The semi-polished finish looks great without being blindingly shiny. Wide feet on the bottom provide a stable base. The 4 foot long air hose has a standard female quick-disconnect fitting to accept your air chuck (not included). A Schrader valve next to the pressure gauge makes it easy to fill from any tire fill station. A secondary quick-fill port lets you connect your air hose directly to the tank (requires quick-disconnect fitting set, not included). Measures 14" long x 10" high including the carrying handle. Weighs just 7.5 pounds when empty. Maximum pressure 125 psi.

<i>Lightweight Portable Air Tank</i>	Part No. LA50316	\$129.99
--	------------------------	----------

Does not include tire chuck or male quick-release fitting. Use of the optional quick-fill port requires separate purchase of additional fittings.

Spare Tire Inflation Systems

Spare Tire Inflation Systems

Left: Trunk-Mount
(rubber hose)
Part No. 3333-001

Right: Under-Chassis
(stainless braided hose)
Part No. 3333-002

Don't get caught with a flat tire AND a flat spare! Our **Spare Tire Inflation Systems** bring the tire valve to you, making it easy to check and inflate. A 36" long hose attaches to your spare tire valve and removes easily with no tools required. A bracket can be used to hold the loose end of the hose in place, and a 90 degree adapter is included for tight installations. The Trunk-Mount system is designed for vehicles with the spare located in the trunk or enclosed cargo area. It uses a lightweight rubber hose. The Under-Chassis system has a stainless-steel braided hose for vehicles where the spare is located outside in the elements.

<i>Trunk-Mount Spare Tire Inflation System</i>	Part No. 3333-001	\$19.99
<i>Under-Chassis Spare Tire Inflation System</i>	Part No. 3333-002	\$27.99

Note: For spare tires in storage only. Not for use on the inside wheel on dually axles.
