

Skid Plate Material

Jabroc

Close-up of Jabroc showing the laminate structure

Now stocking all seven thicknesses!

Jabroc Skid Plate Material is a high-density wood laminate that is manufactured using extremely high pressures and temperatures. This results in predictable and uniform wear and friction properties, making it ideal for skid plates. When installed over vulnerable areas on the bottom of your vehicle's chassis, Jabroc can be very effective at protecting these areas from damage due to bottoming out on the track surface or curbing. Jabroc can be cut and shaped using standard metalworking tools. We now stock Jabroc in all 7 thicknesses, from 4mm ($\frac{5}{32}$ "") through 25mm (1"). Jabroc is available in eighth sheets (50cm x 50cm, approx. 19 1/2" square), quarter sheets (50cm x 100cm, 19 1/2" x 39"), and full sheets (100cm x 200cm, 39" x 78"). See note below concerning shipping full sheets.

One-Eighth Sheets, 50cm x 50cm nominal (approximately 19.5" x 19.5"):

- Jabroc Skid Plate, 4mm ($\frac{5}{32}$ ""), 50cm x 50cm Part No. 6180-04-050x050 \$41.49
- Jabroc Skid Plate, 5mm ($\frac{3}{16}$ ""), 50cm x 50cm Part No. 6180-05-050x050 \$50.49
- Jabroc Skid Plate, 6mm ($\frac{1}{4}$ ""), 50cm x 50cm Part No. 6180-06-050x050 \$57.49
- Jabroc Skid Plate, 8mm ($\frac{5}{16}$ ""), 50cm x 50cm Part No. 6180-08-050x050 \$70.99
- Jabroc Skid Plate, 10mm ($\frac{3}{8}$ ""), 50cm x 50cm Part No. 6180-10-050x050 \$92.99
- Jabroc Skid Plate, 12.7mm ($\frac{1}{2}$ ""), 50cm x 50cm Part No. 6180-12.7-050x050 \$108.99
- Jabroc Skid Plate, 25mm (1"), 50cm x 50cm Part No. 6180-25-050x050 \$202.99

One-Quarter Sheets, 50cm x 100cm nominal (approximately 19.5" x 39"):

- Jabroc Skid Plate, 4mm ($\frac{5}{32}$ ""), 50 x 100cm Part No. 6180-04-050x100 \$75.99
- Jabroc Skid Plate, 5mm ($\frac{3}{16}$ ""), 50 x 100cm Part No. 6180-05-050x100 \$94.99
- Jabroc Skid Plate, 6mm ($\frac{1}{4}$ ""), 50 x 100cm Part No. 6180-06-050x100 \$103.99
- Jabroc Skid Plate, 8mm ($\frac{5}{16}$ ""), 50 x 100cm Part No. 6180-08-050x100 \$135.99
- Jabroc Skid Plate, 10mm ($\frac{3}{8}$ ""), 50 x 100cm Part No. 6180-10-050x100 \$177.99
- Jabroc Skid Plate, 12.7mm ($\frac{1}{2}$ ""), 50 x 100cm Part No. 6180-12.7-050x100 \$207.99
- Jabroc Skid Plate, 25mm (1"), 50 x 100cm Part No. 6180-25-050x100 \$389.99

Full Sheets, 100cm x 200cm nominal (approximately 39" x 78"), see note below:

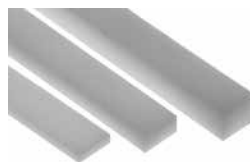

- Jabroc Skid Plate, 4mm ($\frac{5}{32}$ ""), 100 x 200cm Part No. 6180-04-100x200 \$239.99
- Jabroc Skid Plate, 5mm ($\frac{3}{16}$ ""), 100 x 200cm Part No. 6180-05-100x200 \$299.99
- Jabroc Skid Plate, 6mm ($\frac{1}{4}$ ""), 100 x 200cm Part No. 6180-06-100x200 \$334.99
- Jabroc Skid Plate, 8mm ($\frac{5}{16}$ ""), 100 x 200cm Part No. 6180-08-100x200 \$434.99
- Jabroc Skid Plate, 10mm ($\frac{3}{8}$ ""), 100 x 200cm Part No. 6180-10-100x200 \$559.00
- Jabroc Skid Plate, 12.7mm ($\frac{1}{2}$ ""), 100 x 200cm Part No. 6180-12.7-100x200 \$659.00
- Jabroc Skid Plate, 25mm (1"), 100 x 200cm Part No. 6180-25-100x200 \$1,279.00

* **A Note about shipping full sheets of Jabroc:** Eighth and quarter sheets of Jabroc can be shipped via UPS. Full sheets can only be shipped via truck freight within the continental USA. We can ship full sheets for a flat rate of \$149 per shipment (no limit to the number of sheets per shipment), protected by a special oversized pallet at no additional cost. You can also pick up your order for free at our warehouse in New Berlin, WI.

Polymer Wear Strips

Our **Abrasion-Resistant Polymer Wear Strips** are ideal for protecting side pods, air dams, side skirts, and other low-hanging bodywork from pavement damage. It outlasts abrasion-resistant steel, yet is easily cut and shaped. In one test, our special polymer strip outlasted stainless steel more than 5 times! It is easily drilled, tapped or machined much like aluminum except the cutting speeds can be much higher. Stocked in one inch wide strips in three thicknesses: 1/4, 1/2 and 3/4 inch thick. Specify length in inches.

- 1/4 inch thick x 1 inch wide Part No. 6101 29¢ per inch
- 1/2 inch thick x 1 inch wide Part No. 6102 39¢ per inch
- 3/4 inch thick x 1 inch wide Part No. 6103 49¢ per inch

Abrasion-Resistant Polymer Wear Strips
1/4", 1/2", and 3/4" thick
Part Nos. 6101, 6102, and 6103
All thicknesses are 1" wide.

Tape

Leading Edge (Helicopter) Tape

This special impact-absorbing tape protects the leading edges of wings, suspension parts, air dams, and bodywork. It has high adhesive strength and is pliable enough to conform to slightly compound curves. Sand, gravel and small stones that would quickly remove the best paint from these exposed surfaces just bounce off this very tough leading edge tape.

- Black Leading Edge Tape, 2" wide x 100 feet, 11 mil thick Part No. 3323-2 \$11.99
- Black Leading Edge Tape, 4" wide x 100 feet, 11 mil thick Part No. 3323-4 \$22.99
- Clear Leading Edge Tape, 2" wide x 12 feet, 8 mil thick Part No. 3437-001-2 \$22.49
- Clear Leading Edge Tape, 4" wide x 12 feet, 8 mil thick Part No. 3437-001-4 \$32.49

Aluminum Tape

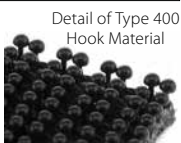

3M Aluminum Tape is a very high-strength and weather-resistant adhesive tape. The heavy foil features a strong adhesive backing. It is ideal for taping over wheel weights, as a light-duty heat shield, or for abrasion protection. Supplied in a 2 inch by 125 inch roll.

- 3M Aluminum Tape, 2" by 125" (10' 5") roll Part No. 3322 \$11.99

3M™ Hook and Loop Materials

Not to be confused with Velcro®! Same principle, but for higher strength applications requiring a temporary mount. Now available in 3 combinations to customize to your application. For applications where one part needs to be flexible or easily handled without scratching, we

recommend **Type 170 Hook with Standard Loop Material**. Stiff hooks on one strip are pressed together with pliable loops from the second strip. For applications where both parts are strong and rigid, use **Type 170 with Type 400 Hook Material**. Stiff hooks on one strip are pressed together with even stiffer hooks on the second strip. For the strongest hold, use **Type 400 with Type 400 Hook Material**. In this application, stiff mushroom-shaped hooks on each strip are pressed together to create a very rigid mount. This combination is only recommended for applications where at least one part is flexible to allow the hooks to release as they are peeled apart. All available in black only; 1 inch wide with a very strong adhesive backing. Sold by the running foot.

- 3M™ Type 170 Hook with Standard Loop Material, per ft. Part No. 5260-050 \$5.39
- 3M™ Type 170 with Type 400 Hook Material, per foot Part No. 5260-051 \$6.49
- 3M™ Type 400 with Type 400 Hook Material, per foot Part No. 5260-052 \$5.79

This super-strong combination is also known as 3M™ Dual Lock™.

Racer's Tape

Super Racer's Tape This is not run-of-the-mill duct tape. It is the strongest and stickiest tape available. A roll of our Super Tape weighs 20% more than the same size roll of our regular tape. It's so strong, you may have trouble tearing a length of tape off of the roll! Available in Black, Red, White, and Silver on 48mm x 60 yard rolls.

- Super Racer's Tape, specify color Part No. 3320-Color \$15.99

Regular Racer's Tape Since our Super Tape is only available in four colors, we also carry a slightly lower-quality tape in other popular colors. This tape is still far superior to duct tape. Available in Blue, Green, Orange, Purple, and Yellow on 2 inch x 60 yard rolls, and Transparent on 48mm x 20 yard rolls.

- Racer's Tape, specify color Part No. 3321-Color \$8.49
- Transparent Racer's Tape Part No. 3437-100 \$9.99

Gaffer's Tape

Gaffer's Tape is similar to Racer's Tape, but without the shiny finish and without the sticky residue. The lower-strength adhesive is great for any temporary taping job. It is ideal for covering car decals or suit patches to satisfy series rules. Available in Black, Blue, Red, White, or Yellow on 2 inch x 60 yard rolls.

- Matte-Finish Gaffer's Tape, specify color Part No. 3436-001-Color.. \$19.79

Note: Blue Gaffer's Tape is a very dark navy blue (almost black).

Non-Skid Traction Tape

Black Non-Skid Tape
Part No. 3437-020

Clear Non-Skid Tape
Part No. 3437-021

This specially textured tape helps you get a grip on any smooth surface. Reduce the chance of slip-and-fall injuries on slick floors, keep your feet on the pedals, or make it easier to loosen your spin-on oil filter! The grainy texture helps your shoes or your hands to grip better, even in wet conditions. Adhesive backing makes a permanent installation as easy as peel-and-stick. Black has a gritty texture almost like sandpaper. Clear is "rubberized", with a more pliable molded texture. Each roll is 4 inches wide.

- Non-Skid Traction Tape, Black, 10 feet Part No. 3437-020 \$17.79
- Non-Skid Traction Tape, Rubberized Clear, 7.5 feet Part No. 3437-021 \$18.99
