

Tire Tools

Intercomp Digital Tire Pressure Gauge with Case

Voted best buy in the industry! This ultra-quick (4 readings per second), very accurate (0.5% of applied pressure) digital tire pressure gauge features a backlit LCD display. User-selectable units (0-100 psi x 0.1, 0-7 Bar x 0.01, or 0-7 kg/cm² x 0.01). Factory-certified calibration is verified on start-up by a self-check program which alerts you if the unit ever needs recalibration! Peak hold function shows the highest measured pressure until the unit is reset to zero. Auto shut-off and low battery warning help manage battery life. Features a 45° swivel chuck and dual thumb operated bleed valves. Uses one standard 9 volt battery (included). **Note:** When comparing accuracy, it is important to read the fine print. Many gauges on the market

advertise accuracy to a certain percentage of full scale or capacity. This means that a 100 psi gauge accurate to 1% of full scale can be off by one full pound (1% of 100) anywhere on the scale. At 14 psi, the gauge could display anywhere from 13 to 15 psi. Accuracy to 0.5% of the applied pressure means that at 14 psi, the gauge will read within 0.07 psi.

Intercomp Digital Tire Pressure Gauge with CasePart No. 360045 \$299.99

Analog Tire Pressure Gauges

Intercomp Deluxe Air Pressure Gauges The most durable and shock resistant in the industry. Has only four moving parts in their patented internal mechanism vs. 14 or more in other gauges. Fewer moving parts means greater reliability. All have 17" Goodyear hose and thumb-operated bleeder with a swivel nozzle. 0-15 x 1/2 psi; 0-30 and 0-60 x 1 psi gauges; 2" standard, 2 1/2" liquid filled and 2 1/2" and 4" glow in the dark offer a great selection at an exceptional value.

2" Deluxe Air Pressure Gauge, 0 to 15 psiPart No. 360062 \$44.95
 2" Deluxe Air Pressure Gauge, 0 to 30 psiPart No. 360063 \$44.95
 2" Deluxe Air Pressure Gauge, 0 to 60 psiPart No. 360064 \$44.95

2 1/2" Liquid Filled Air Pressure Gauge, 0 to 15 psiPart No. 360065 \$52.95
 2 1/2" Liquid Filled Air Pressure Gauge, 0 to 30 psiPart No. 360066 \$52.95
 2 1/2" Liquid Filled Air Pressure Gauge, 0 to 60 psiPart No. 360067 \$52.95

2 1/2" Glow in the Dark Air Pressure Gauge, 0 to 15 psiPart No. 360068 \$52.95
 2 1/2" Glow in the Dark Air Pressure Gauge, 0 to 30 psiPart No. 360069 \$52.95
 2 1/2" Glow in the Dark Air Pressure Gauge, 0 to 60 psiPart No. 360070 \$52.95

4" Glow in the Dark Air Pressure Gauge, 0 to 15 psiPart No. 360058 \$65.95
 4" Glow in the Dark Air Pressure Gauge, 0 to 30 psiPart No. 360059 \$65.95
 4" Glow in the Dark Air Pressure Gauge, 0 to 60 psiPart No. 360060 \$65.95

Intercomp Fill, Bleed, & Read Gauge

Why waste time juggling a tire pressure gauge and a filler chuck? This combination gauge makes the job quicker and easier. Just hold the angled chuck on the tire and read the gauge. Press the trigger to fill the tire, or press the bleed valve button to let air out. The oversized 4" gauge reads 0-60 psi in 1 psi increments. Female 1/4 NPT inlet threads requires male air hose fitting (not included).

Fill, Bleed, & Read GaugePart No. 360087 \$139.00

Tire Pressure Gauge One-Way Valve

Our Analog Tire Pressure Gauges above are not designed to hold the reading when the chuck is removed from the tire. This compact check valve installs between the tire hose and the bleed valve to hold pressure until the bleed valve is opened. 1/4 NPT threads fit all gauges above.

Tire Gauge Check ValvePart No. 3228-500 \$9.49

E-Z Read Tire Stagger Tape

This 10 foot tape measure is designed for tire stagger, but it is useful for any measurements. The narrow, flexible tape has black numbers on a white background. The high-visibility case has a magnetic back to stick to your toolbox between uses.

E-Z Read Tire TapePart No. 2966 \$4.99

Tire Marking

Keep track of the age and heat cycles on a set of tires, mark stagger measurements, or mark punctures or other damage.

White Tire Marking Crayon (shown)Part No. 3332 \$1.59
 Silver Tire Marking Paint Pen (not shown)Part No. LA50882 \$6.99

Tire Valve Stems and Caps

Valve Stem with Cap
Part No. 3334

Caps Only (set of 4)
Part No. 3331

These chrome-plated valve stems fit most cast and modular wheels. The nut is on the outside so you can check tightness without dismounting the tire. Length is approximately 1" to 1.2" above the rim depending on the rim thickness. Rubber bushings included for both large and small rim holes.

Valve Stem with Cap, eachPart No. 3334 \$3.99
 Set of 4 Metal Valve Caps OnlyPart No. 3331 \$2.99

Our compact **Tire Valve Core Tool** (not shown) easily removes and installs standard valve cores from most tire stems. Store spare cores and caps in the billet aluminum handle.

Longacre Billet Valve Core ToolPart No. 50270 \$19.99
 Extra Tire Valve Cores, eachPart No. 9814-029 \$1.19 ea.

Tire Pressure Relief Valves

Instead of guessing how much your tire pressure will increase as the tire temperature rises, these relief valves let you set the tires to the desired pressure and automatically vent excess pressure as you race. Their reliability has been well proven by thousands of circle track racers from NASCAR Sprint Cup on down. Features lightweight aluminum construction (only 9 grams), built-in 100 mesh filter and an enclosed poppet for protection from dirt.

They can also be locked shut for tire mounting. Adjustment range from the factory is 15 to 40 psi. Low-pressure springs are also included to convert to a range of 5 to 15 psi.

Tire Pressure Relief Valves, Set of 4Part No. 3336-5-to-40 \$89.99

Tire Grooving Iron

Our deluxe 250 watt, 120 volt pistol grip grooving iron has a solid brass head that preheats the rubber in front of the cutting blade, making it fast and easy to cut grooves and maintain accurate control. Includes a .215" wide cutting head and 12 matching cutting blades. Extra heads and blades in this width as well as a wider, .375" size are also available.

250 watt Pistol Grip Grooving Iron with (12) .215" bladesPart No. 3715 \$113.99

Replacement Brass Head, .215" widePart No. 3716-.215 \$15.79

Replacement Brass Head, .375" widePart No. 3716-.375 \$17.99

One Dozen Replacement Cutting Blades, .215" widePart No. 3717-.215 \$13.49

One Dozen Replacement Cutting Blades, .375" widePart No. 3717-.375 \$14.79

Intercomp Tire Humidity/Temperature Meter

Knowing the moisture content inside the tire helps predict pressure gain as the tire heats up. This lightweight, battery operated meter has a tire valve fitting to check the condition of the air in your tires. Large LCD also displays temperature in °C or °F.

Tire Humidity/Temperature MeterPart No. 360036 \$289.00

Intercomp Tire Durometer (Rubber Hardness Tester)

Don't waste money on new tires if you don't have to! Keeping track of your tire condition is an effective way to tell if your tires will need replacement before the next race. This small, portable, easy-to-use durometer tells you exactly how soft your tires are. Measures from 0 to 100 on the Shore "A" scale (ASTM 2240). A storage pouch is included.

Tire DurometerPart No. 360092 \$59.99

Tread Depth Gauge

More accurate than the "Lincoln's Nose" test! A fast and easy way to measure tread depth to keep track of the wear rate on DOT or other treaded tires. Also fits the treadwear indicating holes in slicks.

Tread Depth GaugePart No. 3108 \$9.99

Self-Adhesive Wheel Weights and Aluminum Weight Tape

Self-Adhesive Wheel Weights Each package contains four, 4" long strips with high-strength pressure-sensitive adhesive. Weighs 1/2 oz. per inch for a total of 8 oz. per package.

Self-Adhesive Wheel WeightsPart No. 3335-4pc ... \$12.99

3M® Aluminum Tape is great for taping over your wheel weights and it looks much better on your rims than duct tape!

Weight Tape, 2" by 125" rollPart No. 3322 \$11.99
